

Less manual work. Clearer payroll review.

150–200 operator hours saved per month

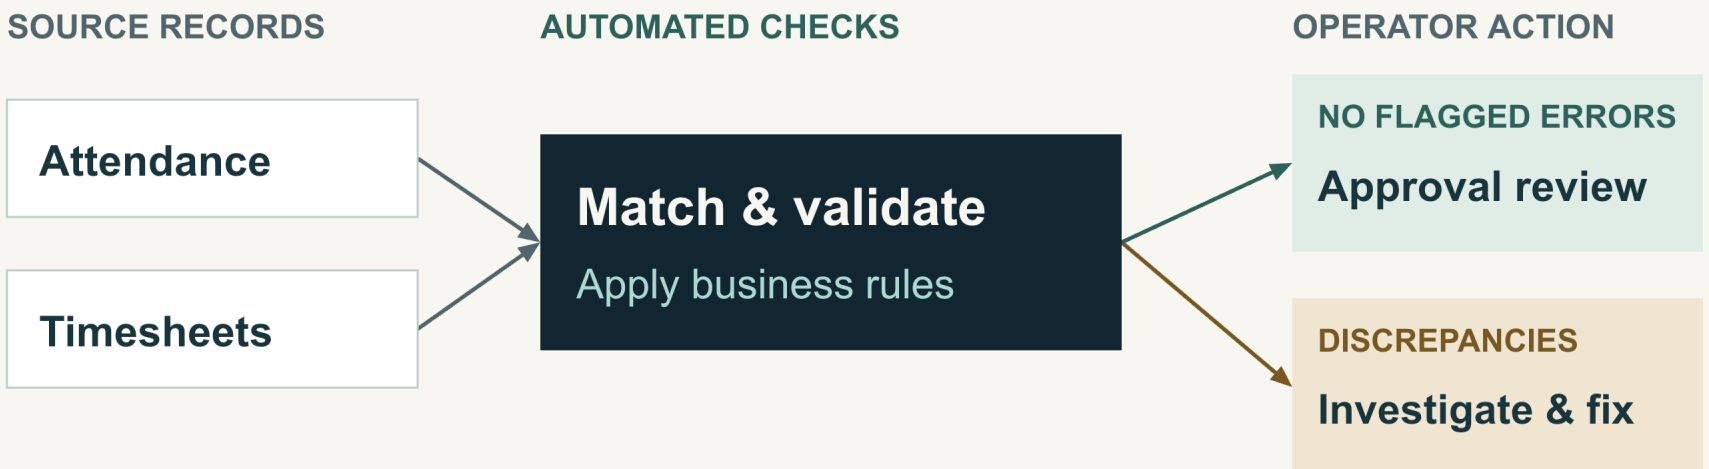

Based on client time measurements.

500+ employees across two businesses¹

~6 hours/month of current user activity¹

Previously, staff manually compared attendance and timesheets against each business's payroll rules.

After: automated checks with operator review.

Rule R7: time recorded, attendance missing.

egregious error

Unmatched Timesheet Entry

Teacher has lesson timesheet entry but no corresponding attendance record in [redacted]

[redacted]

🕒 2:30 PM - 3:34 PM

⌚ 1.07h

Lesson not found in [redacted] If this lesson is valid, send a support email to have it added to [redacted] Otherwise, remove this entry from your timesheet.

[Hide full fix](#)

An operator verifies the lesson before correcting either record.
